REMARKS

In response to the Identification of Missing Requirements mailed on March 13, 2006,

applicants submit the foregoing amendments to bring the specification into compliance with the

Sequence Listing Rules of the U.S. Patent and Trademark Office. In particular, entry of the

accompanying Substitute Sequence Listing into the specification is requested, as is entry of the

foregoing amendments. Also submitted herewith is a Computer-Readable Form of the Substitute

Sequence Listing, and the required statement under 37 C.F.R. § 1.821 that the paper and CRF

versions contain the same sequence information.

In the Substitute Sequence Listing, the application identification information has been

updated, and Sequence ID Nos. 9-32 have been added. Support for the amendments and

additional sequences may be found in the original application and original sequence listing, for

example at page 41, lines 5-15; page 43, lines 11-35; page 45, line 5 to page 52; page 53, lines 3-

11; page 57, line 34 to page 58, line 13; and the original sequence listing. No new matter enters

by these amendments.

After entry of the foregoing, it is believed that the application is now in compliance with

the Sequence Listing Rules. Should the Examiner have any questions or determine that any

further action is desirable to place this application in condition for allowance, the Examiner is

encouraged to telephone applicants' undersigned representative at the number listed below.
